

# ST NEOT SCHOOL SEN Information Report for Special Educational Needs and Disability (SEND)

At St Neot School, we believe that every child is special and has individual needs.

St Neot is an inclusive school and welcomes all children of any ability or disability. We have a staff who are trained to meet the needs of the children in our care. Children's abilities vary over a wide range, and many children have times, temporary or long term, when they may need extra support.

#### Examples may include:

- Specific problems with reading, writing or mathematics
- Emotional or behavioural problems
- · A child with learning difficulties
- Sensory or physical difficulties
- Visual, speech and language, hearing or mobility problems
- Children with exceptional gifts or abilities

Most children's needs are met by the class teacher, but sometimes it may be necessary to make special provision. Policies are available on the policy section of our website.

# Name and contact details of the Special Educational Needs and Disabilities Coordinator: Sam Bowden The levels of support and provision offered by our school

1. Listening to and responding to children and young people

Whole school approaches The universal offer to all children and YP.	Additional, targeted support and provision	Specialist, individualised support and provision
		å.

Young Carers	Working with children to make their role as carers a more positive experience, offering support, information and activities
Physical Disabilities Service	Supporting children with Physical Disabilities and their families and ensuring schools provide good physical access and appropriate ICT equipment to improve learning opportunities and enable independent learning

#### **Answers to Frequently asked Questions**

1. How does your school know if children need extra help and what should I do if I think my child may have special educational needs?

We regularly assess the children, and discuss whether a child would benefit from extra help. We would then talk with you to discuss any intervention. If you have any concerns about the needs of your child, you are encouraged to speak with the Special Needs Coordinator/Headteacher, Mrs Bowden or the class teacher.

2. Who is responsible for the progress and success of my child in school?

The Local Authority and the School Governing Body is ultimately responsible for your child, but delegate day-to-day responsibility to the Headteacher and her staff.

3. How will school staff support my child?

The class teacher will have the highest expectations for your child and for all the pupils in their class. They will build on what your child already knows, can do and can understand. The teacher and the support staff will carefully check on your child's progress, and decide, in consultation with you, on any extra support needed to help them make the best possible progress.

4. How will I know how my child is doing and how will you help me to support my child's learning?

You will receive regular reports and face-to-face meetings. You are also welcome to make additional appointments if you have any concerns at all.

5. What specialist services and expertise are available at or accessed by your school?

There are a wide range of specialist services, including Speech and Language Therapy, Dyslexia Service, Child and Adolescent Mental Health Service, Autistic Spectrum Team and Sensory Service.

6. How will my child be included in activities outside the classroom including school trips?

All children are fully included in all activities, including school visits, and any reasonable adjustments will be made to ensure

there is no discrimination.

7. How will school prepare and support my child through the transition from key stage to key stage and beyond?

The staff within the school carefully plan the transition from one year to the next and from Key Stage One to Key Stage 2. We work closely with all the secondary schools to ensure smooth transition to Key Stage 3. Provision might include additional supported visits to classroom/school and a Transition Book.

8. How are the school's resources allocated and matched to children's special educational needs?

The school budget, received from Cornwall Local Authority, includes money for supporting children with SEND. The SENCO/Headteacher decides on the budget for Special Educational Needs in consultation with the school governors, on the basis of needs in the school.

The SENCO/Headteacher discusses all the information they have about SEN in the school, including:

- The children receiving extra support already
- The children needing extra support
- The children who have been identified as not making as much progress as would be expected, and decide what resources, training and support are needed
- All resources, training and support are reviewed regularly and changes made as needed.
